

PEOPLE is run by a consortium of industry representatives, higher education institutions, and an intermediary organisation based in four different countries (Slovenia, Czech Republic, the Netherlands, and United Kingdom) involving different disciplines in different contexts. PEOPLE partners are jointly developing and integrating people-centred development approaches into research, teaching and learning practices.

PEOPLE is co-funded by the European Union under the Erasmus+ Programme (Cooperation for innovation and the exchange of good practices, Knowledge Alliances for higher education).

PEOPLE brings together interdisciplinary groups of students, faculty educators and industry professionals to solve real-life business challenges in the field of energy and sustainable living.

PEOPLE helps industry professionals to integrate social science expertise in their practice.

PEOPLE allows social science and humanities students to develop additional practical competences towards employability.

PEOPLE enables faculty educators to develop better-engaged social science learning processes in higher education.
